

# REMEMBER: SET OUT FOOD SCRAPS FOR COMPOSTING!

## ***WHAT CAN YOU COMPOST?***

<b>Fruit and veggie trimmings</b>	<b>Leftovers</b>	<b>Napkins &amp; paper towels</b>
<b>Starchy foods, like rice</b>	<b>Plate scrapings</b>	<b>Tissues</b>
<b>Meat and cheese</b>	<b>Rotten food</b>	<b>Coffee grounds &amp; filters</b>
<b>Small amts. grease &amp; bone</b>	<b>Eggshells</b>	<b>100% paper plates</b>

## ***WHY SHOULD YOU COMPOST?***

- About one-third of rubbish could actually be composted.
- Keeping food waste separate means trash is lighter and less messy.
  - Without the Kalaupapa Landfill it is imperative to separate compost from trash.
- Composting food waste creates a useful product for yards and gardens. The finished compost will eventually be available for Kalaupapa gardens, and will release the nutrients and organic qualities back into soil.

**Set compost container out for pick up on MONDAY and THURSDAY  
Mahalo for participating!**

Recyclables		Compost		Trash
